WEB DEVELOPMENT PROJECTS

Decisions   https://mydecisions.herokuapp.com/
A collaborative decision-making app, built with Meteor.
Allows users and their friends to simplify their group decision-making through a social rank-voting system. A bar chart illustrates the final choice.

Night Out   https://what-are-you-doing-tonight.herokuapp.com/
A location-based event-planning app, built with Ruby/Rails and the Yelp API. Users can expand their social circles by creating and joining events in their area. Features include commenting, flagging, and administrator access.

WORK EXPERIENCE

Editor / Electronic Book Developer, Scribe Inc. | Philadelphia | 2016
